

DIARY NOTES - 2 12 June

STATINTL

1. [REDACTED] telephoned to inquire about his promotion. When he left for his present assignment he discussed with me the possibility of getting a grade GS-15. I told him that we would be glad to consider it if the position in the Project which he occupied was a GS-15 and we had received a recommendation for his promotion from the Division. He said that the Division had forwarded such a recommendation last December. I told him I would investigate and get in touch with him. Investigation reveals that the Division has not made any such recommendation nor do they have any intention of doing so at this time.

STATINTL

2. George Carey notified me that an [REDACTED] who had been terminated at the request of the Office of Security had now filed suit against [REDACTED] and [REDACTED] asking for damages and two years salary. Have referred this to Larry Houston to handle.

STATINTL

3. Met with the Agency Survey Board ~~and~~ and after a rather length discussion agreed that we would change our policy so that an individual driving a [REDACTED] car would be liable for damages only in case of gross negligence when he was on official business. However, when he was on personal business he would be liable for the first hundred dollars.

STATINTL

4. Had lunch with General Cabell and briefed him on my recent trip.

STATINTL

5. [REDACTED] buzzed me to suggest that we might like to take movies of the progress of the building in its various phases of construction. I think that this is a good suggestion and will follow it up with Messrs [REDACTED] and Garrison.

6. Ed Saunders reported on his meeting with Messrs. ~~Sprink~~ Sprankle, Crosby, and Sanders of the House Appropriations Committee Staff. He sees no indication that they will press to do anything about our building during this session of the Congress, ~~that they~~ They were quite clear in stating that they did not want another Pentagon when concessions were ~~discussions~~ discussed. Ed feels that as a result of these discussions we had better clear any concessions we have in mind with the Committee. I told him that we had, of course, given some thought to allowing private enterprise to build concessions on the property in return for the privilege of operating them over a stipulated period of years. Ed feels that even this should be cleared with the Committee. (EXCERPT [REDACTED])

STATINTL

7. [REDACTED] telephoned to say that he had called Tom Bailey, the State Department Security Officer, and had suggested that they get together one more time to see if they could not agree on some changes in the State security pouch procedure. I encouraged Bob to do this since the Director has now decided to take this matter up at the OCB and it seems a little ridiculous that two senior mature security officers could arrive at two different conclusions based on the same set of facts.

STATINTL

STATINTL

8. Jim Garrison and I looked at all of the space which we occupy in the Matomic Building and decided that [REDACTED] could give up about 900 square feet and OO somewhere between 1,000 and 2,000 square feet in order to provide urgently needed additional space for [REDACTED] Project.
